SUNCOR IS ROLLING OUT THE BARRELS, OF CHAIN

Plymouth, MA, November 27, 2017– Suncor Stainless has developed a new bulk chain program offering our valued distributors never before seen pricing on our exclusive Made in USA and Import Economy Chain. With a recent aggressive ramp in production capability, warehouse space, and buying power Suncor is stocked well in advance of demand. Suncor Made in USA Chain is manufactured with an exclusive electrostatic welding process making it the best choice for highly corrosive environments. Suncor Economy Chain is perfect for every day applications in corrosive environments. Our new dual inventory balancing and aggressive pricing will reward customers who stock Stainless Steel Chain as a regular part for their business. If you have not checked Suncor lately please join us and crack open a barrel.

Suncor Stainless sells Stainless Steel products for marine and industrial applications through our network of distributors spread across the United States, Canada, The Caribbean and South America. To find out more about becoming a Suncor Stainless Distributor or for product information Sales@Suncorstainless.com.
