

ORDERING EYE BOLTS

STANDARD

Suncor offers standard stainless steel eye bolts with thread sizes ranging from 3/16" to 1" and thread lengths from 0.53" to 18". If you require an eye bolt that does not fall into these dimensions, refer to the "Custom" section below.

Standard Eye Bolt Features

Suncor provides two grades of stainless steel for standard eye bolts; 304 and 316. The grade 304 stainless steel eye bolts are wire formed and feature welded and unwelded eye types in Standard and Metric units of measurement. Eye bolts that are grade 316 feature three different eye types and all use the Standard unit of measurement. Most eye bolts are supplied with a washer and nut (more available upon request).

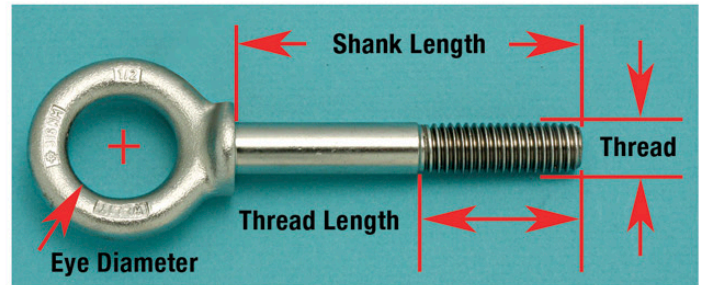

Record Eye Bolt Specifications

To easily order standard eye bolts, please record the desired specifications below. Use the picture to the right for reference.

*** Please fill in the fields below and call for quick and easy ordering!**

EYE DIAMETER: _____ SHANK LENGTH: _____

THREAD SIZE: _____ THREAD LENGTH: _____

CUSTOM

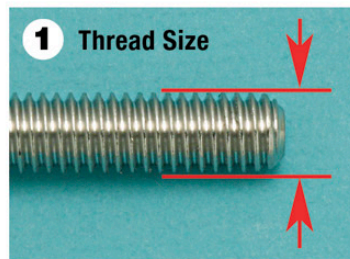

For thread lengths exceeding 18", Suncor Stainless offers custom eye bolts to fit your desired specifications. Follow the steps below for accurate eye bolt ordering.

Customizing Your Eye Bolts

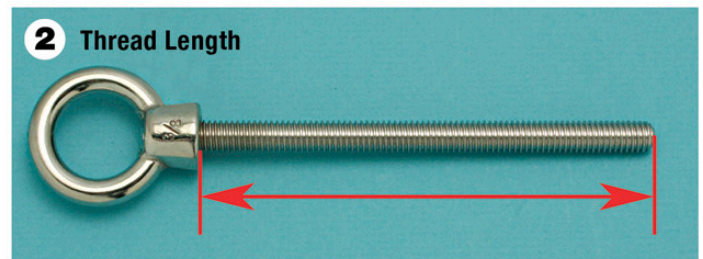

Custom eye bolts are only offered in grade 316 stainless steel and with a fully threaded shoulder. Suncor will determine the eye size needed to match the thread size you specify and will be welded onto the threaded rod. There are seven thread sizes to choose from, ranging from 1/4" to 1". Eye bolts are supplied with a washer and nut. Use these steps to easily order your custom stainless steel eye bolts.

Standard Eye for Custom Orders
We will determine the eye needed based on the thread size you specify.

Choose Thread Size
1/4" - 5/16" - 3/8" - 1/2"
5/8" - 3/4" - 1"

Specify Thread Length
Indicate your desired thread length here:
