

IN THE LOOP

Quick Attach™ Lifeline Kits

Rig a Lifeline in Minutes!

Boat owners are regularly faced with the decision of replacing their lifelines as a result of rust or cracked coating. Rather than send your measurements and details to a rigging service to have them custom made, which can be costly, rig and install a lifeline in minutes using a Suncor Stainless Quick Attach™ Lifeline Kit. Stainless steel mechanical swage fittings offer seamless results using only simple hand tools. The Quick Attach™ turnbuckle with toggle provides a safe and secure alternative to open body fittings and allows for easy tensioning. Wire rope is sold separately and is available in a 1x19 construction or PVC coated 7x7 wire. Wire rope offers a long lifespan and an attractive finish while PVC coated wire is comfortable to grip and eliminates the possibility of items catching or snagging on the lines.

Strap-It

Available in 10", 13", 16" and 24" Lengths

Strap-It is the quickest and easiest way to secure your gear on the go! Made from high-quality nylon, Strap-Its webbing is tough enough to boast a 1,000 lb WLL, while soft enough to prevent scratching the surface of whatever it's wrapped around.

Available in lengths from 10" to 24" for varied uses and applications. Try out Strap-It today!

ITEM	SIZE (length)
S0239-0001-C	10"
S0239-0002-C	13"
S0239-0003-C	16"
S0239-0005-C	24"

Add a Strap-It anywhere that a point of attachment is needed. The simple design provides a multitude of functions from organizing and hanging lines to securing gear.

Galvanized Folding Grapnel Anchors

Available in a Variety of Colors

The Folding Grapnel Anchor is cast iron galvanized and will hold in mud, sand, gravel, and rock. It is designed for the temporary mooring of small boats, sailboats, personal watercraft (PWC), inflatable boats, canoes, and float tubes. It comes complete with one galvanized shackle (G8001 series only), 38 feet of nylon rope spliced to it, an in-line buoy which slides up and down the rope, a stainless steel spring clip at the end and a nylon storage bag. The storage bag means you can neatly stow this anchor system in your PWC or boat, protecting it and your vessel. It fits into most personal watercraft seat compartments. The new color options make the anchors easy to spot in the water.

Our Grapnel Anchors come in black, blue, green, red and uncoated. The colored anchors come with a storage bag and 38 feet of nylon rope with an attached buoy and spring clip.

Grapnel anchors are generally used for temporary mooring of watercrafts such as:

- Kayaks
- Row Boats
- Canoes
- Paddle Boards
- Float Tubes

An anchor storage bag comes with the black, blue, green and red grapnel anchors only.
