- Marine Applications

Download your free guide today!

This comprehensive guide explores the unique properties of stainless steel and its proven benefits across various industries. Explore its exceptional corrosion resistance, hygiene and cleanliness benefits, unmatched strength and durability, and the differences between popular grades 304 and 316.

## EMPLOYEE HIGHLIGHTS

**NEW EMPLOYEE** - Suncor Stainless Inc., is the leading manufacturer for stainless steel hardware in the industrial, marine, government, architectural, OEM and commercial industries. Suncor Stainless is delighted to announce the appointment of John Tavares as the new Senior Regional Account Manager. In this pivotal role, John will oversee key customer relationships, and drive strategic growth in the Southeast Region.

John Tavares joins Suncor Stainless with an extensive background in sales planning and product line management, previously working at Cool Gear International, where he excelled in account management, channel management and sales. John will be crucial in driving our Southeast Region strategy and fostering strong relationships with our customers, ultimately contributing to Suncor's continued growth and success. We are excited to welcome John to the Suncor family; with his expertise and track record he will be a great fit for this role.

*"I am thrilled to join the Suncor Stainless team and take on the new role of Senior Regional Account Manager. I look forward to leveraging my experience to build strong relationships with our clients and drive growth in the Southeast Region."*

- John Tavares, Senior Regional Account Manager

**NEW EMPLOYEE** - Suncor Stainless is excited to announce the newest addition to the customer service team. Alicia Bacewicz, who is stepping into the role of Key Account Customer Service Representative, comes to us with a strong background, bringing a wealth of knowledge and commitment to delivering exceptional customer service.

With years of experience in customer service and sales management, Alicia has a demonstrated track record in logistics, negotiation, operations management, and account management. Prior to joining Suncor Stainless, Alicia worked at Bruning International as a Sales Manager.

Alicia is a fantastic addition to the customer service team and will continue to contribute significantly to Suncor's goal of providing exceptional experiences for our customers.

*"I am thrilled to join the Suncor Stainless team and look forward to applying my skills and experience to support our customers and help the team continue to exceed expectations."*

- Alicia Bacewicz, Customer Service Representative

### HEAVY DUTY FORGED TURNBUCKLES

*The heavy-duty forged Turnbuckle series is a complete collection to fit demanding applications.*

These turnbuckles feature an open body style in a variety of configurations consisting of jaws, eyes, hooks, stubs and studs. Turnbuckle sizes range from 1/4" to 1-1/2" and have working load limits up to 17,000 lbs. They are made from grade 316 stainless steel for maximum corrosion resistance and durability, making them ideal for any marine or industrial application. All the components that make up Suncor's forged turnbuckles can be sold separately as replacement turnbuckle parts.

### EYE BOLTS AND U-BOLTS

*Various bolts for every occasion*

Suncor Stainless manufactures an extensive line of stainless steel eye bolts and u-bolts. The eye bolts range in size from 3/16" to 1" and 5mm to 24mm. They feature a variety of styles including welded, unwelded, ring, plain and shoulder. Custom eye bolts are also available. Suncor's u-bolts are offered in thread sizes from 1/4" to 1/2". All of the u-bolts include nuts and many also include washers or backing plates. These eye bolts and u-bolts are made from grade 304 or 316 stainless steel for maximum corrosion resistance and durability. They are ideal for marine, industrial and architectural applications.
