

TOYS FOR TOTS

Giving Back

At Suncor Stainless we feel it is important to give back to the community, especially

during the holidays. This is why every year we hold a company "Toys for Tots" gift drive for children in need. Since the start of our company toy drive, we have exceeded our previous year's donations. We encourage our customers to participate in the "Toys for Tots" drive this holiday season and those to come by bringing in new, unwrapped toys to local donation spots. For more information on where you can donate in your area, please visit: www.toysfortots.org.

PRODUCT SPOTLIGHT

- WIRE ROPE CLIPS
- SWIVELS

Stainless Steel Wire Rope Clips

Suncor's wire rope clips and clamps are available in sizes ranging from 1/16" to 1-1/4" for all projects, large or small. They are made from grade 316 or grade 304 stainless steel for corrosion resistance and durability and are ideal for marine, industrial and architectural wire rope projects.

We also offer a complete line of wire rope tools and stainless steel accessories including wire rope cutters, thimbles and turnbuckles.

Stainless Steel Swivels

Suncor's stainless steel swivels are offered in standard and heavy duty combinations. The swivels are made from stainless steel for corrosion resistance and durability with many of the available style being load rated.

They are available in sizes ranging from 5/32" to 1". Suncor's swivels are ideal for marine and industrial rigging applications.

WINTER IS COMING

Start Next Season Fresh with New Railing and Bimini Hardware

Start next season fresh with new railing and bimini hardware by Suncor Stainless. We offer the essential fittings to completely overhaul your bimini setup. Suncor's collection of bases, elbows, tees and corner fittings is offered in a variety of configurations and angle degrees. All of the bimini and railing hardware is precision cast using 316 stainless steel and sized to accommodate 7/8" or 1" tubular bimini railing. Bimini components feature a mirror polished finish for maximum corrosion resistance. Also available for order is a full line of 316 stainless steel fasteners which can be used to mount the replacement bases to your boat. Leave your worries behind and enjoy being on the water knowing Suncor has you covered!

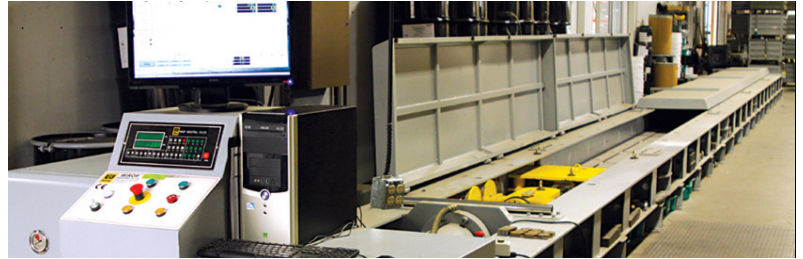

QUALITY ASSURANCE

Suncor Stainless produces the highest performance quality stainless components in the industry, all backed by the industries only Limited Lifetime Warranty. Quality assurance is a core business practice at Suncor. Our dedicated quality team utilizes state-of-the-art testing equipment to ensure customer satisfaction on every part sold. As an ISO certified company, Suncor Stainless leads the industry in quality products and services.

PRODUCT TESTING

Suncor consistently tests all product that we sell in three areas: elemental metals content, stress and tensile strength, and physical salt spray for corrosion resistance proofing. Additionally, all products are physically inspected for design dimension and physical appearance.

METAL CONTENT TESTING

We utilizes X-Ray Florescence (XRF) chemical analysis to determine the accurate metal content of our products

before, during and after the manufacturing process. XRF is an elemental analysis technique that is highly accurate in determining major elements.

STRENGTH TESTING

Suncor uses a variety of instruments to test the strength of our parts against the stated specifications.

Simply stated, we perform extensive stress tests on all products with stated load performances.

CORROSION RESISTANCE TESTING

Suncor performs extensive materials proofing for corrosion resistance, utilizing a sophisticated salt spray testing process. This places the product under the strain of 5 years of constant ocean water exposure.

HOLIDAY WISHES FROM CRANKY

As we approach the holiday season, we want to thank you for your continued support and partnership. May this holiday season bring you joy and peace.

We look forward to another year of collaboration and success with you.

Happy Holidays and Happy New Year!

- Cheers, Your Suncor Family
