FOR IMMEDIATE RELEASE

SUNCOR STAINLESS® EXPANDS HARDWARE LINE WITH HEAVY-DUTY MARINE GRADE STAINLESS STEEL SWIVELS

Plymouth, MA, September 29, 2026 – Suncor Stainless Inc., a leading provider of high performance rigging and hardware solutions, today announced the launch of its new line of Marine Grade Jaw & Eye and Jaw & Jaw Swivels. Designed for demanding applications requiring exceptional safety and security, the new product line features heavy duty hex bolts with integrated nut and cotter pin assemblies.

The addition complements Suncor Stainless's existing offerings of screw pin and no-snag pin swivels, giving customers a broader selection of load rated hardware tailored to their specific operational needs. Unlike temporary pin designs, the positive locking hex bolt and cotter pin mechanism ensures a reliable, permanent connection that prevents accidental backing out under dynamic loads and vibrations.

Key Technical Specifications & Features:

- **Material:** Precision-cast 316 stainless steel for maximum corrosion resistance and durability in harsh weather.
- **Size Range:** Available in a full range of sizes from 6mm to 20mm.
- **Working Load Limit (WLL):** Capacities spanning from 600 lbs. to 7,100 lbs.
- **Security:** Heavy-duty hex bolt with nut and retaining cotter pin prevents accidental displacement.
- **Versatility:** Suitable for marine, industrial, food processing, wastewater, cleanroom, and cryogenic environments.

"Our goal is to continually adapt to our customers' evolving safety and operational demands. By adding this heavy duty hex bolt option to our line of precision cast 316 stainless swivels, we are giving engineers, riggers, and operators a more permanent, fail-safe attachment method without compromising on environmental resistance."

- Patrick Striebel, President / CEO

The complete line of Jaw & Eye and Jaw & Jaw swivels is available immediately for order through authorized distributors.

Suncor Stainless® Inc. is a leading manufacturer of stainless steel hardware in the industrial, marine, government, architectural, OEM and commercial industries. Suncor's modern facilities manufacture an ever-expanding product line that has become one of the world's most complete and highest quality sources for stainless steel chain, hardware and custom parts. As an ISO 9001 certified company, you can trust that all Suncor® products and services will consistently meet customer and regulatory requirements.
